

High Security Portable Fence Systems  
& HVM Barriers

## FenceBox

ARX FenceBox is a flexible fence solution, used to control and segregate large crowds at sports stadiums, festivals and other large events across the world.

**ARX FenceBox has a 50m roll of wire mesh fencing inside**

**Roskilde Festival, Denmark**

**BERNEXPO, Switzerland**

**ARX FenceBox is designed to allow flexibility in the length of fence that you wish to build.**

Add more by simply attaching the Wire Mesh Fence to another FenceBox.

## Components & Build

The fence has a span of up to 50m and can be set-up by two people within minutes. Most of the components required for the build are contained within the FenceBox itself.

### Vertical Posts

Position equal distances apart, along the predetermined route that the fence will run; to help support the weight of the overall build.

### Upper Cable

Release from the box and run across the top of the **Vertical Posts**. Lock into the **End Post** or into another FenceBox. Tension with wheel inside the FenceBox.

### Wire Mesh Fence

The **Wire Mesh Fence** is then deployed out from a lateral segment in the front of the FenceBox.

### Top & Bottom Fasteners

Fix the **Wire Mesh Fence** to the **Vertical Posts** by using the **Top & Bottom Fasteners**.

### End Post

Used to terminate a fence run. They can also be integrated anywhere in the set-up to allow you to turn corners.

### Crank Handle

The **Wire Mesh Fence** can be tightened using the **Crank Handle** to take out any slack visible.

## Specifications

<b>Box Dimensions</b>	1.15 m x 1.15 m x 2.1m
<b>Fence Height Options</b>	1m or 2m
<b>Length</b>	50 m
<b>Weight (no concrete)</b>	+/- 600 kg
<b>Weight (with concrete)</b>	+/- 1000 kg

## Main Features & Benefits

- Quick and easy installation - only two people required
- Plinth includes slots - Makes transportation using a forklift effortless
- Socle filled with concrete - Adds rigidity and strength to the overall build
- A great alternative to road barriers, portable fence sections, police fencing and event fencing
- 50m length - Cover large areas in minimal time
